

Packing/Equipment list:

Recommended Clothing

- Casual and comfortable clothing that you can layer (mornings and evenings may be cool)
- Fleece
- Rain jacket & pants (optional)
- Windbreaker
- Cold weather clothing including hat, gloves & scarf (depending on time of year)
- Sturdy hiking boots/shoes for hiking on uneven terrain
- Sun hat (depending on location and time of year)

Other essentials:

- Sunscreen
- Insect repellent (for certain itineraries)
- Sunglasses
- Energy snacks
- Flashlight or headlamp for pre-sunrise or post-sunset hikes
- Water Bottle

Photography Essentials

- A sturdy bag to carry your camera, lenses and tripod (preferably a backpack)
- At least one DSLR or Mirrorless camera, with full manual controls preferred
- Wide angle lens: 16-35mm range (for landscape workshops)
- Standard range zoom: 24-120mm (for landscape workshops)
- Long range zoom: 100-400 or 600mm (for wildlife photography)
- Teleconverter (optional – but useful for wildlife)
- Neutral Density Filters – 2 and 3 stop filters recommended (for slowing water)
- Polarizing filter
- I recommend all lenses have UV filters for protection against the elements
- Sturdy Tripod, with a head
- Battery charger and extra batteries
- Lots of memory cards (high speed cards are useful for wildlife photography) and card reader for backing up photos
- Extra batteries plus battery charger and cables
- Laptop with your choice of photo editing software (for workshops, where post editing instruction is offered, or to back up your photos)
- If you're not bringing a laptop a backup hard drive is useful for backing up photos.
- Remote shutter release
- Lens & sensor cleaning supplies - Lens cleaning cloths, small rocket blower or sensor dust cleaner
- Waterproof baggies or camera cover for rain or sand conditions
- Notebook & pen
